About the Trust

- We are a non-profit organisation established in 1999.
- We promote all types of wetlands including swamps, bogs, tarns, lakes, estuaries and geothermal pools.
- We aim to build a wetland interpretation centre for people to learn more about wetlands and experience their special qualities.
- The Trust has developed a number of wetland heritage trails, a directory of wetlands, and hosts regular wetland restoration conferences.
- The Trust patron is internationally renowned biologist and TV celebrity, the 'Bug Man' Ruud Kleinpaste.
